

Thoughtfully designed for maximum convenience

Dual-wing floating arm
for flexible adjustments

Gestures powered
touch screen

A minimum height of 1m
Can be folded up and
taken on-the-go
Easily fits into an MPV

Robust flight case
Easy packaging

23.8" bezel-less
screen for an
immersive experience

Automatic wake-up of
remaining power reminder

26dB super-silent design as
quiet as a bedroom
Up to 2H uninterrupted
scanning without power cables

Modular design for easy
and fast maintenance

Nuewa I8

Diagnostic Ultrasound System

Innovation, in every facet

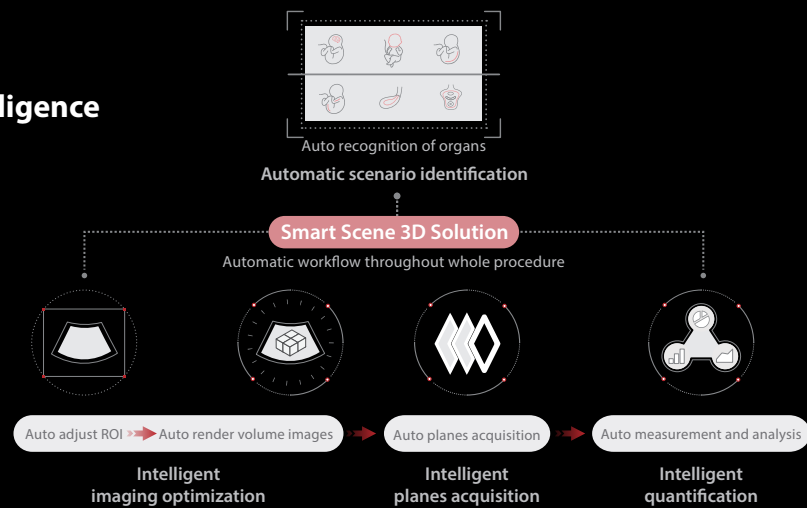

Innovation

Embark on an extraordinary journey, redefining the way you manage your daily practice. Powered by the cutting-edge ZST+ platform and full stack of intelligent solutions, **Nuewa 18** delivers unrivaled imaging clarity, boosting your confidence and efficiency to new heights. Designed with utmost thoughtfulness, it minimizes fatigue and maximizes convenience throughout the operation process.

Scenario-oriented full-stack intelligence

The innovative Smart Scene 3D solution enables automated identification of tissue characteristics and delivers organ-specific diagnosis with full-stack intelligence throughout the entire procedure. This innovation reduces dependence on clinical skills, while elevating diagnostic accuracy, confidence, and efficiency.

Obstetric solution

Excellent imaging with full-stack intelligent tools for both routine practice and complex diagnosis, such as fetal central nervous system...

Reproductive health

Smart FLC for efficient follicle counting and Smart-V Trace for easy endometrial receptivity evaluation

GYN diagnosis

Superb images with various transducers, and advanced assessment tools such as IOTA ADNEX for ovarian tumors, elastography...

Urogynecology

Extremely easy diagnosis of pelvic floor disorders with Smart Pelvic and full-stack intelligence

Advanced diagnosis with enhanced intelligence
